Emmanuel Israel

Professional Summary

Results-driven Software Engineer with hands-on experience developing responsive, user-focused web applications using React, TypeScript, Node.js, and Python. Skilled in building scalable front-end architectures, implementing RESTful APIs. Passionate about leveraging modern frameworks to create intuitive user interfaces and data-driven platforms that enhance user engagement and performance.

Bachelor of Science in Computer Science

University of Lagos

Experience

TechStudio Academy — Full-Stack Developer

Nov 2025 – Present

- Taught full-stack web development using HTML, CSS, JavaScript, React, Node.js, and Git to cohorts of 20–40 students.
- Delivered structured lessons, coding exercises, and real-world projects that improved student comprehension by 70%.
- Developed custom learning materials, assignments, and assessments to support beginner-to-intermediate learning paths.
- Conducted weekly code reviews and debugging sessions to reinforce clean code practices and logical thinking.
- Mentored students on portfolio building, project architecture, and interview readiness, helping multiple students secure tech internships.

Samiway Educational Consult — Software Engineer

August 2024 – September 2025

- Developed and maintained a responsive online learning platform used by 500+ students, utilizing React, Tailwind CSS, and TypeScript.
- Built 12+ reusable UI components including course cards, quizzes, progress bars, and video players to improve code reusability and reduce development time by 30%.
- Implemented role-based dashboards for students, instructors, and admins, improving platform navigation and engagement by 40%.
- Collaborated with the backend team to optimize API integrations and data flow, improving page load time by 25%.

Lagos Internal Revenue Service (LIRS) — IT Support Technician

September 2023 – October 2024

- Provided technical support and troubleshooting for over 150+ staff systems, ensuring 99% uptime across the department's network and computer infrastructure.
- Diagnosed and resolved hardware, software, and network issues, reducing system downtime and improving workflow efficiency by 35%.
- Assisted in system upgrades, printer configurations, and software installations across multiple offices to enhance operational performance.
- Supported data backup and recovery operations, maintaining data integrity and preventing potential data loss incidents.
- Collaborated with the IT team to monitor network performance and security, identifying and mitigating vulnerabilities proactively.

ICSL (Information Connectivity Solutions Limited) — Software Engineer Intern
June 2022 – August 2023

- Led the front-end redesign of ICSL's customer self-service portal, increasing mobile responsiveness and user satisfaction by 45%.
- Developed interactive analytics dashboards for real-time billing and usage visualization using React and Chart.js.
- Implemented modular front-end architecture, reducing maintenance issues and bug frequency by 20%.
- Mentored 5+ junior developers and interns on front-end best practices, Git workflows, and responsive design principles.
- Collaborated cross-functionally with backend engineers and UI designers to improve overall user experience.

Genius Camp — Web Development Mentor
Nov 2021 – Dec 2022

- Mentored 15+ junior developers on HTML, CSS, JavaScript, React, and Git through one-on-one and group sessions.
- Designed and delivered 5 custom learning modules, boosting mentee project completion rate by 60%.
- Conducted live coding workshops and code reviews to reinforce clean code practices and problem-solving skills.
- Supported mentees in building personal portfolios and securing internships or junior developer positions.

Projects

[Estateery Real Estate Platform](#) – React, TypeScript, TailwindCSS

<https://estateery.vercel.app/>

- Built a property rental platform with dynamic search, filtering, and listing management features.
- Implemented modular components and responsive layouts, resulting in a 95% mobile accessibility score.

Sammyway Learning Platform – React, Flask, TailwindCSS

<https://samiway.com/>

- Developed interactive learning modules and integrated quiz functionality for enhanced student engagement.
- Collaborated on backend API integration to synchronize progress tracking and course data.

Skills

Frontend: React, TypeScript, JavaScript, Redux, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Django, Flask, Python

Other Tools: Git, GitHub, REST APIs, MySQL, Agile Development, Responsive Design

Certificates

- Web Development Certification – CK Digital
- React Certification – Maximilian Schwarzmüller (Udemy)
- Complete Node.js Developer Course – Maximilian Schwarzmüller (Udemy)
- Backend Development Bootcamp – NITHUB

Volunteering

- **Google Developer Student Club (Member)** – Supported developer community events and peer learning sessions.
- **Nithub Community Volunteer** – Assisted in coding workshops and student mentorship initiatives.
